F7S-D

PROFESSIONAL HEAVY VEHICLE AND MACHINERY SCAN TOOL

The FCAR **F7S-D** is a professional, all-in-one heavy vehicle and machinery diagnostic tablet that is compatible with most of the engines from America, Asia and Europe. This tool supports standard high & low CAN bus, J1587, J1708, J1939 and other communication protocols. Just some of the brands this tool supports are:

Case
Benz Truck
Great Wall
Isuzu
Iveco
Hino
Man

Perkins
Hawtai Hyundai
Mack
Caterpillar
Bobcat
Volvo
Cummins

The **F7S-D** provides various functions including fault code erasure, fault code reading, data stream reading, actuation test, cylinder cutoff, compression test and balancing test, injector programming, oil light reset, DPF regeneration, clutch adjustment, parameters programming and much more...

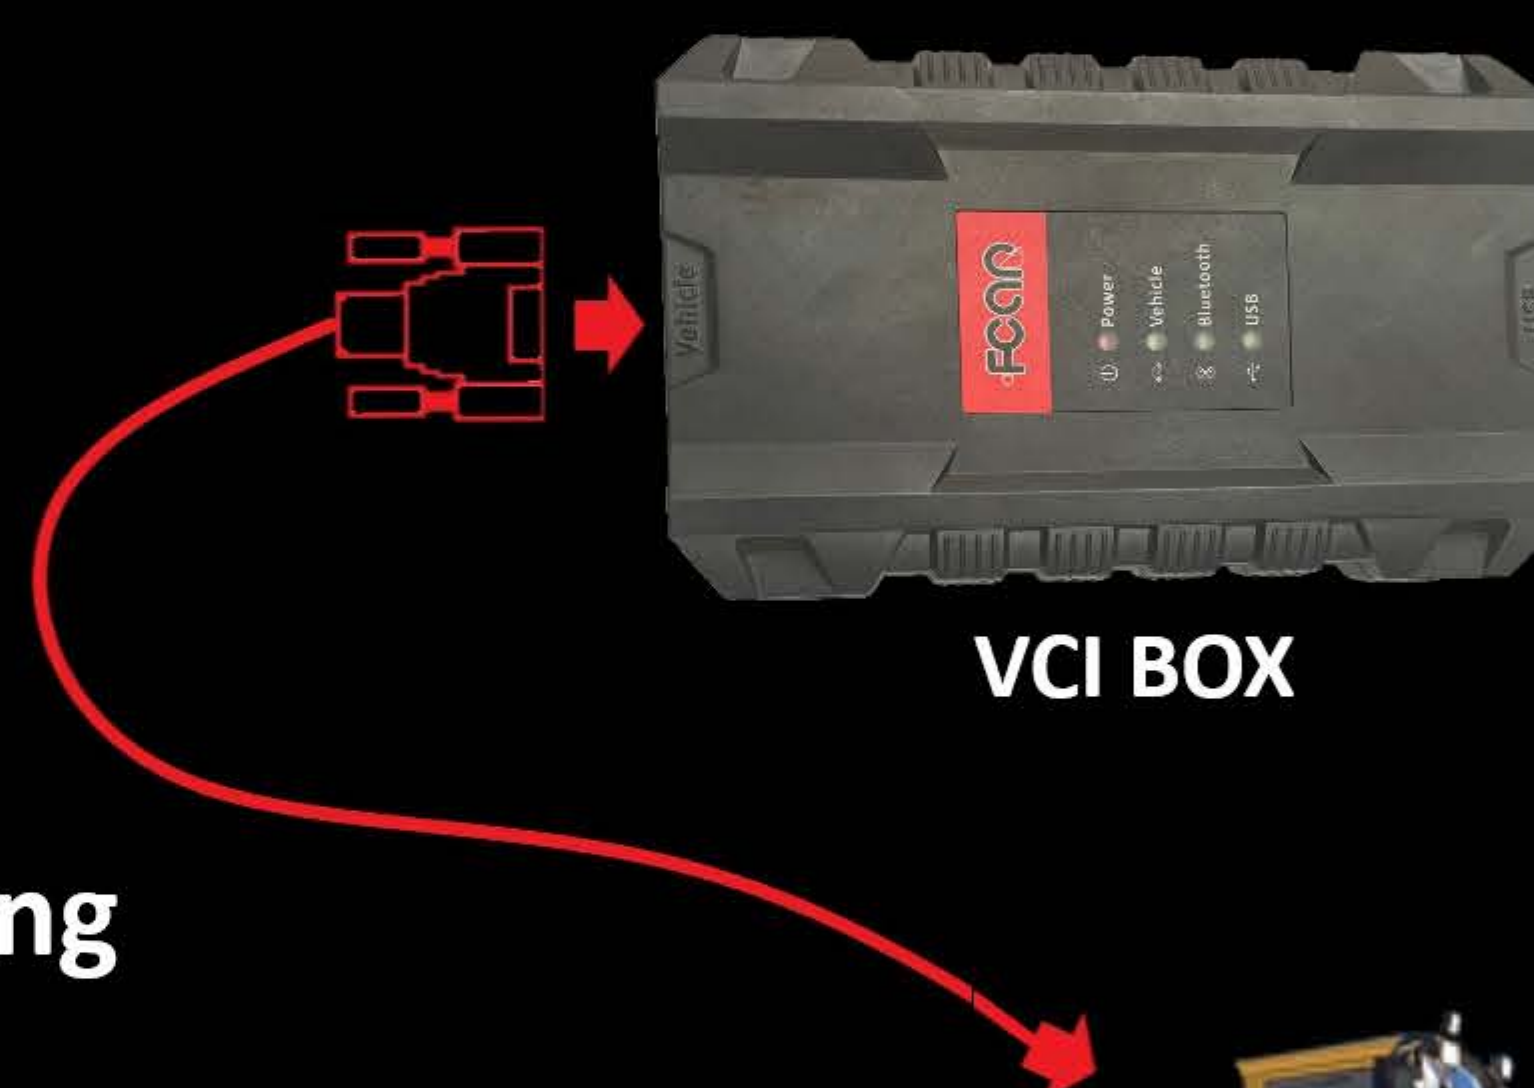

With powerful hardware and advanced software, the **F7S-D** is one of the best motorcycle scan tools in the market for workshops, training institutions, manufacturers, mechanics and even for enthusiast end-users.
